/ 100

Pillar breakdown

Structural Answerability 25 / 35 pts

Pass AI crawler access

- Finding: No AI crawler is blocked in robots.txt, so AI search engines can read this site.

- Source: /robots.txt

- Snippet:

User-agent: *

Disallow:

Critical Schema markup

- Finding: No schema.org markup was found, so AI systems have no structured description of this business to work from.

- Source: <https://www.tradebangla.com.bd/>

- Note: Add a LocalBusiness JSON-LD block to the homepage. Recommended snippet:

```
{
"@context": "https://schema.org",
"@type": "LocalBusiness",
"name": "YOUR BUSINESS NAME",
"description": "What you do and who it is for",
"url": "https://your-site.example",
"telephone": "+1-555-555-5555"
}
```

Pass Direct-answer clarity

- Finding: The homepage states clearly, in one sentence, what this business does and who it is for.

- Source: homepage

- Quote: Trade Bangla is a leading online marketplace and free classifieds website in Bangladesh.

Pass FAQ content

- Finding: The site contains question-style headings that AI systems can use to answer common questions directly.

- Source: <https://www.tradebangla.com.bd/>

- Quote: Why Choose Trade Bangla?

Live AI Citation Test 0 / 45 pts

Timed out after 45s while querying live AI. Report finalized with the completed pillars.

Third-Party Corroboration 0 / 20 pts

Pending

Requirements not yet met

Add structured data about your business

impact: medium

effort: medium

- Why it matters here: No schema.org markup was found, so AI systems have no structured description of this business to work from.

- Explanation: Structured data tells AI assistants who you are, what you do, and where you are, in a format they can read reliably. Paste the JSON-LD block below into your homepage HTML and replace the placeholder name, description, URL, and phone with your real details.

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "LocalBusiness",
"name": "YOUR BUSINESS NAME",
"description": "What you do and who it is for",
"url": "https://your-site.example",
"telephone": "+1-555-555-5555"
}
</script>
```
