- Add a question-and-answer section (impact medium, effort medium)

20 / 100

Pillar breakdown

Structural Answerability 20 / 35 pts

Pass AI crawler access

- Finding: No AI crawler is blocked in robots.txt, so AI search engines can read this site.

```
- Source: /robots.txt
- Snippet:
User-agent: *
Content-Signal: search=yes, ai-input=yes, ai-train=no
Allow: /api/og/*
Allow: /api/docs-og*
```

```
Allow: /api/product-og*
Allow: /api/dynamic-og*
Allow: /api/model-og*
Allow: /api/www/avatar/*
Disallow:
Disallow: /api/
Disallow: /oauth
Disallow: /confirm
Disallow: /notifications
Disallow: /old-browser.html
Disallow: /preauthorize
Disallow: /signup?*
Disallow: /invites/
Sitemap: https://vercel.com/sitemap.xml
```

Critical Schema markup

- Finding: No schema.org markup was found, so AI systems have no structured description of this business to work from.

- Source: <https://vercel.com/>

- Note: Add a LocalBusiness JSON-LD block to the homepage. Recommended snippet:

```
{
"@context": "https://schema.org",
"@type": "LocalBusiness",
"name": "YOUR BUSINESS NAME",
"description": "What you do and who it is for",
"url": "https://your-site.example",
"telephone": "+1-555-555-5555"
}
```

Pass Direct-answer clarity

- Finding: The homepage states clearly, in one sentence, what this business does and who it is for.

- Source: homepage

- Quote: Host platforms that serve every customer

Needs work FAQ content

- Finding: No FAQ content was detected on the site.

- Source: <https://vercel.com/>

- Note: No FAQPage schema or question-style headings found.

Requirements not yet met

Add structured data about your business

impact: medium

effort: medium

- Why it matters here: No schema.org markup was found, so AI systems have no structured description of this business to work from.

- Explanation: Structured data tells AI assistants who you are, what you do, and where you are, in a format they can read reliably. Paste the JSON-LD block below into your homepage HTML and replace the placeholder name, description, URL, and phone with your real details.

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "LocalBusiness",
"name": "YOUR BUSINESS NAME",
"description": "What you do and who it is for",
"url": "https://your-site.example",
"telephone": "+1-555-555-5555"
}
</script>
```

Add a question-and-answer section

impact: medium

effort: medium

- Why it matters here: No FAQ content was detected on the site.

- Explanation: AI assistants look for explicit question-and-answer content when summarizing a business. Add a short FAQ with real questions customers ask — it gives AI ready-made, accurate answers to pull from.
